

Mikayla's Journey

My name is Kylie Henstock, the author of Mikayla's Journey. The story is about our daughter Mikayla who suffers with nocturnal frontal lobe epilepsy. It follows her from diagnosis through seven years of medications, hospital admissions at both Tauranga Hospital and Starship, respite care, slipping behind at school to finally getting a better quality of life on the Modified Atkins Diet. Our other daughter, Aleisha, is also in the book as she also developed epilepsy, however she gained reprieve from her seizures whilst on Epilim.

The book is currently for sale on Amazon.com in paperback and kindle forms. I can also order paperback copies myself and sell directly. The paperback books direct from me at kylie40henstock@hotmail.com and sell for \$15 plus postage.
